The smarter people mover

Wherever life's journey leads you, there's no better way to travel than in the Ford Transit Minibus. Smarter, more capable and better connected than ever, it takes group transport comfortably in its stride.

Ford Transit Minibus features a bold front-end design with a large three-bar grille, a sleek bonnet and bumper, and distinctive bi-xenon headlights with LED technology (bi-xenons headlights standard on Limited, optional on Leader and Trend).

Inside, you'll find built-in connectivity and advanced driver assistance technology to help make working days easier. While the interior, with ample stowage, stylish seat designs and attractive trim materials will reward its occupants with greater levels of comfort than ever before.

Model shown is a Transit Minibus L3 H3 14/15 seat Limited in Diffused Silver metallic body colour (option).

Access made easy

The Ford Transit Minibus offers unrestricted access to the passenger compartment. An extra-wide, power-operated sliding side door provides two regulation-size exits making it easier to get in or out. For added convenience, all models feature a power-operated side step, and passenger assist handles located on both sides of the door.

Power-operated side load door and step

The power sliding door is designed to provide easy access to the spacious passenger compartment. For added convenience, a power-operated side step extends automatically when the sliding door opens. When the door is closed, the step automatically retracts. (Power-operated side load door - Option. Step - Standard)

Model shown is a Transit Minibus L3 H3 14/15 seat Limited in Chrome Blue metallic body colour (option).

Travel in style

Ford Transit Minibus allows everyone to travel in style and comfort, no matter where they are seated. And with space for up to seventeen passengers*, plus the driver, it offers the perfect mix of passenger carrying ability and load carrying potential.

Its unique rear seats are ergonomically-designed for long-distance comfort and are trimmed in smart fabrics that have been subjected to our toughest ever abrasion tests. Second row seats incorporate ISOFIX child seat fixing points with top tether mounts for extra security (standard). Aisle style seating makes it easier to reach the seats in the back.

Trend and Limited series provide even greater levels of passenger comfort, offering height-adjustable head restraints, reclining seatbacks and armrests as standard. While, for added versatility, selected rear seats can be removed to accommodate wheelchairs** or to provide additional luggage space.

*18-seat L4 H3 model.

**Wheelchair attachment points are the responsibility of your appointed converter.

Model shown is a Transit Minibus L3 H3 15 seat Limited in Moondust Silver metallic body colour (option).

Smart stowage

With its light and spacious fully-trimmed interior, the Ford Transit Minibus is designed to make even the longest journey a pleasure. Overhead storage shelves, standard on L4 H3 (LWB-EF high roof) models, offer convenient additional stowage.

For a more comfortable travel experience, a separate air conditioning system is available for the rear passenger compartment, featuring its own rotary controls (standard on Trend and Limited, option on Leader). Each row of seats is provided with two foot-level outlets for heating and, when specified, aircraft-style overhead air conditioning vents for efficient air circulation and individual LED reading lights.

Note Transit Minibus H3 (high roof) cannot be fitted with a roof rack.

Model shown is a Transit Minibus L3 H3 14/15 seat Limited in Diffused Silver metallic body colour (option).

Driving business

In the Ford Transit Minibus, you are surrounded by exceptional levels of finish and refinement, high-quality design and advanced driver technologies which put you comfortably in control. A new 8" touchscreen at the heart of the fascia supports pinch and swipe gestures and delivers a range of information, entertainment and navigation, as well as voice control (standard on Trend and Limited).

The facia-mounted gearshift provides easy cross-cab access. And, because life at the wheel runs more smoothly, when you have room to store everything you need, you'll find plenty of easily accessible stowage space too.

Model shown is a Transit Minibus L3 H3 14/15 seat Limited in Diffused Silver metallic body colour (option).

Cost of ownership

Quality and durability are built into the Ford Transit Minibus at every step. From its advanced Ford EcoBlue diesel engine range to its innovative fuel-saving technologies and its vehicle maintenance monitor that analyses the way your vehicle is being driven, Transit Minibus can help improve dependability, driving efficiency and running costs.

Vehicle maintenance monitor

Analyses your vehicle's data to help optimise your engine's performance. Displays a range of information in the instrument cluster, including the oil life remaining, AdBlue® exhaust fluid distance to empty and water in fuel warning. (Tyre Pressure Monitoring System - Option)

Ford Easy Fuel capless refuelling system

A unique safeguard ensures that nobody can accidentally fill up with the wrong fuel. Plus, no dirty fuel caps to touch. (Standard)

Auto Start-Stop

Automatically switches off the engine when you come to a halt and shift the vehicle in neutral. Restarts smoothly when you want to move off, helping to reduce fuel consumption and exhaust emissions. (Standard)

*For further fuel economy and emissions information, please refer to the specifications section.

Meet your phone's new best friend

Ford SYNC 3

Ford SYNC 3 integrates seamlessly with your compatible smartphone, letting you control everything from phone calls and text messaging to music and satellite navigation – all via the 8" touchscreen or through remarkably simple voice commands. Map updates help to keep you on track and on time, and are complimentary for a limited period following vehicle registration.

SYNC 3 features

- Manage your phone, music, apps and navigation with simple voice commands
- Hear your text messages read aloud for you
- Emergency Assistance[†] helps occupants place an emergency call to provide emergency services
- Control SYNC-compatible apps with Apple CarPlay and Android
- Navigate your smartphone through the SYNC 3 home screen, as if it were your handset
- Colour touchscreen supports multi-touch ‘swipe’ and ‘pinch-to-zoom’ gestures, and lets you arrange application icons and background displays just as you would on your tablet or smartphone

Please note: Full SYNC 3 smartphone integration only available with iPhone 5/Android 5.0 (Lollipop) or higher. Some SYNC 3 functions require a data connection, so mobile data charges will apply. To check whether Apple CarPlay and Android Auto are available in your market, please check official Apple CarPlay and Android Auto websites for the latest information.

[†]Ford Emergency Assistance is an innovative SYNC feature that uses a Bluetooth®-paired and connected mobile phone to help vehicle occupants initiate a call to the local Communications Centre, following a vehicle crash event involving an airbag deployment or fuel pump shut off. The feature operates in more than 40 European countries and regions.

100% connected

Only Ford can deliver a fully connected ecosystem that is built-in from the start. The FordPass Connect* modem and the FordPass App makes the job easier, unlocking a range of efficiency and security features.

Whether you work with one business vehicle or manage up to five, FordPass Pro gives you the tools you need to help keep them healthy, secure, and running smoothly.

- **Quick Setup** Use your phone's camera to add up to five vehicles to your account through the app using the vehicles' VIN numbers
- **Vehicle Health** Manage your vehicles' health
- **Health Alerts** Enable you to manage your vehicles' health in real-time
- **Fleet Health on Map** See all of your vehicles on a single map with their health status visible. Check your fleet at the start and end of the working day
- **Remote Lock and Unlock** Zonal Locking allows you to remotely access different areas of your vehicle, e.g. side load door, driver's door, etc
- **Remote Start** Get your fleet ready for business at the start of the day and heat or cool the cabin as required (models with automatic transmission only)
- **Guard Mode** Set your vehicle in a heightened state of security and receive notification of any activity with your vehicle
- **Roadside Assistance** Keep your fleet up and running with roadside assistance when you need it
- **Online Service Booking** Check your Dealer's availability and book your service direct from the app

FordPass Pro is available in selected markets. Please see your Ford Dealer for details.

Download **FordPass Pro** from the App Store or get it on Google Play.

- **Live Traffic (two year trial)**** sends up-to-date traffic information directly to the SYNC 3 Navigation system. The technology then adjusts the recommended route based on the traffic conditions, so you waste less time on the way to your next job
- **On-board Wi-Fi (three month trial)***** with speeds of up to 4G; this enables mobile working for up to 10 devices. You can even use the hotspot from up to 15m outside the vehicle for more efficient mobile working when you get to the site.
- FordPass Connect features are provided on a two year trial from date of first registration. After this, subscription charges will apply.

****Ford Data Services

With Ford Data Services and FordPass Connect you can receive vehicle data securely to either your own telematics application or via your chosen Telematics Service Provider. Data available includes; vehicle health, vehicle location, fuel usage and driving characteristics, and can be received on multiple vehicles. Data can be integrated with your existing in-house application or your chosen Telematics Service Provider.

****Ford Telematics

With Ford Telematics and FordPass Connect you can easily view data and manage all your vehicles using our intuitive user dashboard. Receive data on multiple vehicles including; vehicle health, vehicle location, fuel usage and driving characteristics. The information is presented with actionable insights that deliver the data you need to manage your fleet.

Note If you operate up to five Ford vehicles you should use FordPass Pro. If you have more than five vehicles, then we recommend using Ford Data Services[†] and Ford Telematics[‡].

*The FordPass Connect on-board modem will be connected at the time of vehicle delivery. You may choose to opt in/out of certain data sharing.

**Live Traffic access is complimentary for the first 2 years following the registration of a new Ford featuring SYNC 3 Navigation; thereafter a licence fee is payable.

***Wi-Fi hotspot (up to 4G LTE) includes complimentary wireless data trial that begins at the time of Wi-Fi hotspot activation and expires at the end of 3 months or when 3GB of data is used, whichever comes first. Afterwards, additional data bundles can be purchased from Vodafone. Please refer to their website for details of their data packages. To take advantage of the built-in Wi-Fi hotspot capability, a Ford vehicle must come with the appropriate hardware, and a data plan is required. Data coverage and service is not available everywhere and terms of your data plan, including applicable message and data rates, may apply.

****FCS products are available for Ford vehicles with an embedded modem. Subscription charges and FCS T&C's apply. Business customers only.

Travel with technology

The Transit Minibus is designed to look out for you and those around you. Across the range, you'll find a choice of technology to help keep you connected, comfortable and confident on the road.

Cross Traffic Alert⁰²⁾*
 Cross Traffic Alert scans left and right as you reverse from a perpendicular parking space and warns of moving vehicles or other hazards. (Option)

Live Traffic (two year free trial)*
 Provides you with regular traffic information updates, such as traffic speed, accidents and road closures, as well as alternative route guidance and mapping to help you avoid problem areas. Available through FordPass via SYNC 3 Navigation.

Blind Spot Information System⁰²⁾
 As another vehicle – a car, van or lorry – enters your blind spot whilst travelling, the system is designed to display a warning light in the corresponding door mirror. (Option)

*Live Traffic access is free for the first 2 years following the registration of a new Ford featuring SYNC 3 Navigation; thereafter there is an annual licence fee.
⁰²⁾Uses sensors.
²⁾Driver assistance feature.
Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.
 Model shown is a Transit Minibus L3 H2 Limited in Diffused Silver metallic body colour (option).

Always alert

The Ford Transit Minibus can help to make it easier to navigate heavy traffic. Intelligent Adaptive Cruise Control (Option) uses satellite navigation information combined with Traffic Sign Recognition to identify the speed limit. The system can then automatically adjust your vehicle's speed to keep you within the limit detected.

Intelligent Adaptive Cruise Control⁽²⁾

Combines Intelligent Speed Assist with Traffic Sign Recognition and cruise control technology, to identify the speed limit and automatically restrict the vehicle's speed within the limit detected. (Option)

⁽¹⁾Uses sensors.
⁽²⁾Driver assistance feature.
Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

Model shown is a Transit Minibus L3 H3 14/15 seat Limited in Dark Carmine Red metallic body colour (option).

Thinking ahead

Using camera and radar technology, Pre-Collision Assist⁽²⁾ with Pedestrian Detection* can monitor your proximity to other vehicles and pedestrians*. If a potential collision is detected, it can alert you with audible and visual warnings and, if needed, pre-charge the brakes and increase brake sensitivity to help provide full responsiveness when you brake. If the system determines a collision is imminent, Active Braking⁽²⁾ may automatically apply full braking to help mitigate the effect of any impact.

Pre-Collision Assist⁽²⁾ with Pedestrian Detection*

Using radar and a camera, the system is designed to detect other vehicles and pedestrians* and can alert you to a potential collision.

⁽¹⁾Uses sensors.

⁽²⁾Driver assistance feature.

*Pedestrian Detection is designed to operate at vehicle speeds of up to 50mph.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

Model shown is a Transit People Mover L3 H3 14/15 seat Limited in Race Red body colour (option).

Smart parking

Parking in a busy street or tight space can be tricky, but with optional Side Park Assist[®] (Standard on Limited), Ford Transit Minibus makes it easy. Ultrasonic sensors can detect objects around your vehicle and warn you if you get too close. Enhanced Active Park Assist[®] goes further still, by identifying a parking space that is the right size and automatically steering you in or out - all you have to do is control the pedals and gears with the help of on-screen instructions. (Option)

Perpendicular parking

Enhanced Active Park Assist[®] identifies a parking space that is the right size, and confidently steers you in.

Parallel parking

Enhanced Active Park Assist[®] can even provide steering assistance when pulling out of a parallel parking spot.

[®]Uses sensors. [®]Driver Assistance feature.
Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.
Model shown is a Transit Minibus L3 H3 14/15 seat Limited in Chrome Blue metallic body colour (option).

Keep in lane

It only takes a momentary slip in concentration to drift out of your lane when driving. Lane-Keeping Alert^{(2)*} is designed to recognise when you approach lane markings without using the indicator, and then warn you with steering wheel vibrations. If you fail to react, Lane-Keeping Aid^{(2)*} will apply steering torque to help keep you within your marked lane.

Side Wind Stabilisation⁽¹⁾

Helps the driver to stay in lane in strong, gusty conditions by using the ESC system to sense when the vehicle is being affected by crosswinds.

⁽¹⁾Uses sensors.
⁽²⁾Operates at speeds over 65 mph on multi-lane roads with clearly visible lane markings.
⁽³⁾Safety feature.
Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.
Model shown is a Transit Minibus L3 H3 14/15 seat Limited in Chrome Blue metallic body colour (option).

Driving confidence

Advanced systems to ease your day.

Transit Minibus is available with a range of safety and Driver Assistance features to help make your time behind the wheel both safer and easier.

Electronic Stability Control⁽¹⁾

Transit Minibus is fitted with Electronic Stability Control (ESC)⁽¹⁾ as standard. The advanced system constantly monitors the path the vehicle is following and compares it to the driver's intended course. If ESC senses a significant difference, it automatically reduces engine torque and applies brakes to individual wheels to help stabilise the vehicle and keep it on track.

Trailer Sway Control^{(1)*} (shown left)

When it detects trailer sway, the system is designed to reduce engine torque and apply the brakes to the appropriate wheel(s) to help maintain control – standard with all Ford tow bars.

Curve Control^{(1)*}

Senses when a driver takes a curve too quickly, and can rapidly reduce engine torque – and apply brakes to individual wheels – to help keep the vehicle under control. (Standard)

Roll Stability Control⁽¹⁾

Ford's unique roll-rate sensor helps the Roll Stability Control system keep tyres grounded under conditions of high centre of gravity and when driving through off-camber turns. (Standard)

Hill Start Assist⁽²⁾

Designed to temporarily prevent you from rolling down a slope when you move your foot from the brake pedal to the accelerator pedal. It works in forward and reverse gears, so is ideal for towing and pulling heavy loads. (Standard)

Load Adaptive Control⁽¹⁾

Designed to adjust the responses of the ESC⁽¹⁾ system to compensate when the vehicle is unladen, partially or fully-laden. (Standard)

Side curtain airbags⁽¹⁾

Designed to help protect the driver and front seat passenger. (Option)

⁽⁰⁾Uses sensors. ⁽¹⁾Safety feature. ⁽²⁾Driver Assistance feature.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

*Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

Model shown is a Transit Minibus L3 H3 14/15 seat Limited in Chrome Blue metallic body colour (option).

Features to make your life easier

Selectable Drive Modes

Allows you to select a choice of drive modes – Normal, Eco, Slippery and, on RWD vehicles (Bus M2) with a factory-fitted tow bar, Tow/Haul mode. The system adjusts various settings, including throttle response and steering feel, to help make driving easier in certain conditions. (Standard)

Vehicle maintenance monitor

Analyses your vehicle's data to help optimize engine performance. Displays a range of information in the instrument cluster, including the oil life remaining, AdBlue® exhaust fluid distance to empty and water in fuel warning. (Tyre Pressure Monitoring System - Option)

10-speed automatic transmission

Advanced 10-speed automatic transmission delivers a smooth, relaxing driving experience. So, whether you're cruising on the motorway or driving in heavy traffic, you'll always be in the right gear at the right time. (Option on 410 and 460 series)

Parking distance sensors⁰²⁾

With the Ford Transit Minibus, you won't have to pass by those more challenging parking spaces. An audible warning helps you judge the distance between your vehicle and obstacles at the front and rear, for easier parking and manoeuvring. (Standard on Trend and Limited)

⁰⁾Uses sensors. ²⁾Driver assistance feature.
Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

Rear camera with LED downlighter

A high level rear-view camera with LED downlighter offers a wider aspect while reversing, and illuminates the area behind the vehicle for improved visibility in poor conditions. The rear camera gains enhanced wide-view functionality when the front wide-view camera is also fitted. (Option)

Front wide-view camera

Provides an extensive view from the very front of your vehicle to the left- and right-hand sides. Particularly useful at junctions and when driving forwards out of parking spaces where your lateral view is impaired. (Option) Includes rear wide-view camera and downlighter.

Leader

Key exterior features

- 16" steel wheels with centre caps
- Passenger's sliding side load door with power step
- Halogen projector headlights
- Daytime running lights
- Side marker lights on L4 H3 version
- Rear bumper with integrated step
- Tinted glass
- Rear mudflaps
- Bodyside mouldings
- Partial body colour front bumper
- Carbon Black front grille
- Easy-Fuel capless refuelling

Key interior features

- DAB / AM / FM radio with 2 x USB, 4.2" Monochrome TFT Screen, Bluetooth®, Emergency Assistance, Ford Pass Connect* (embedded modem)
- Vehicle maintenance monitor
- EDCC (Electronic Dynamic Cornering Control)
- ESP/ABS/Hill Start Assist
- Leather-trimmed steering wheel
- Quickclear heated windscreen
- Selectable Drive Modes
- Electrically-operated front windows with one-shot up/down on driver's side
- Lane-Keeping Alert
- Adaptive Cruise Control with Forward Alert
- Automatic headlights with autowipers
- Rear courtesy lights with theatre-style dimming
- Trip computer
- Pre-Collision Assist with Pedestrian Detection

Engines

Diesel

- 2.0L Ford EcoBlue (130 PS) (96 kW)

Personalise

Rear window protection guard

Helps prevent interior and exterior damage, without obscuring the driver's view out of the rear window. (Option and accessory)

ClimAir®+ wind deflectors

Gives you a more comfortable drive with the front windows open, even during light rain. (Accessory)

Rubber floor mats

Tray style rubberised all-weather floor mats are tailor-made to fit and help to protect against dirt and damp. The driver's mat can be securely fixed onto the vehicle's floor to help prevent it from slipping. (Accessory)

Engine undershield

Tough metal undershield helps to protect the engine and transmission from accidental stone damage during heavy duty use. (Option and accessory)

Xvision® Park Distance Control

Make difficult manoeuvres easy with Xvision parking distance sensors. An audible warning helps you to judge parking distances (Accessory)

Alloy wheels

Alloy wheels give your Transit Minibus a unique and personal look, with rims designed to complement its design from every angle. As well as looking great, genuine Ford alloys are engineered by Ford, specifically for your vehicle. (Option and Accessory)

Bosch® reverse warning device

Designed with safety in mind, this reverse warning device helps to alert pedestrians with an acoustic signal when you are reversing. (Accessory)

Brink® tow bar

For extra transport capability, the fixed tow bar can tow up to 3,500 kg, depending on engine. (Accessory) Commercial users may need a digital tachograph. A fitting kit is available from your Ford Dealer.

Premium Safety Pack

Be prepared for any situation with the Premium Safety Pack containing Ford emergency equipment; warning triangle, high-visibility vest, first aid kit and gloves. (Accessory)

Fitment of accessories may have an impact on your vehicle's fuel consumption.
+Item covered by third party supplier's warranty, please see back cover for details.

Efficiency

The power of choice

From power and torque to efficiency and refinement, each engine in the Ford EcoBlue diesel range has been optimised to meet the needs of today's business world. Engineered to comply with the latest European emissions standards, the upgraded engines are even cleaner and more efficient than their predecessors, with lower CO₂ and NO_x emissions. A revised high-pressure fuel-injection system helps achieve more efficient combustion, while the use of low friction technologies reduces power losses within the engine.

Key fuel-saving technologies include*

- Auto Start-Stop system
- Ford Smart Regenerative Charging
- Gearshift indicator light to aid economical driving
- Electric power assisted steering (EPAS)
- Aerodynamic design improvements
- Low rolling resistance tyres

Choosing the right axle ratio for your Ford

As well as different engine, transmission and driveline options, choosing the right axle ratio can further help tailor your new Ford to meet your specific needs.

- **Lower final drive ratio (e.g. 3.7:1)** Most suitable for flat/gentle terrain, lighter loads with limited or no towing, and driving at steady highway speeds. (Standard)
- **Higher final drive ratio (e.g. 4.4:1)** Recommended for maximum towing and payloads, shorter stop-start journeys, and hilly terrain with steep gradients. (Option)

Note For further fuel economy and emissions information, please refer to the specifications section.

***Note** Some of the features listed above may be options, at extra cost and may not be available on all models. Please refer to the specification tables, or speak to your Ford Commercial Vehicle Dealer for further information.

Flexible

2.0L Ford EcoBlue 130 PS Heavy Duty diesel engine

The 2.0-litre Ford EcoBlue 130 PS (96 kW)/385 Nm diesel engine strikes a balance of delivering extra power and torque necessary to enhance gross train mass (GTM).

*WLTP figures. For more information, please see Fuel and Performance section.

Powerful

2.0L Ford EcoBlue 170 PS Heavy Duty diesel engine

The 170 PS (125 kW) Ford EcoBlue diesel develops an impressive 405 Nm of torque. As the most powerful engine in the Heavy Duty range, its hard-working character makes it the ideal choice for moving heavy loads and towing, while delivering outstanding levels of refinement.

Clean diesel technology

Ford EcoBlue diesel engines

Transit's range of upgraded Ford EcoBlue diesel engines meets the latest stringent European Heavy Duty emissions standards.

Ford EcoBlue diesel engines have been fitted with a Selective Catalytic Reduction (SCR) system that uses AdBlue®, a urea/ water-based fluid to convert NO_x emissions in the exhaust gas into nitrogen and water vapour. Diesel vehicles are also fitted with a diesel particulate filter which reduces more than 99% of emitted solid particulates from the vehicle's exhaust.

Our business is to keep your business moving.

FORD BUSINESS SERVICE

Efficiency, accuracy and convenience are at the heart of the Ford commercial vehicle service promise. Therefore, whether it is servicing, maintenance or repair you need, be sure to come and see us.

- Available from all Transit Centres and Transit Service dealers
- While-you-wait servicing by prior appointment
- Late night servicing available at least once per week
- Priority treatment for urgent repairs
- Vehicle off the road repairs (VOR)*
- Collection and delivery**
- Testing and MOTs
- Transparent pricing
- Genuine Ford parts quality
- Ford-trained technicians
- Interim checks for optimum vehicle performance
- Service Activated Roadside Assistance†
- Ford Protect packages to suit you
- One Call to access all the Ford services you need

For more information and to find your nearest participating Ford Commercial Vehicle Dealer, visit the aftersales support section at www.ford.co.uk/transit24

Commercial Vehicle Finance

When it comes to financing your Ford Commercial Vehicle, our size and expertise means we're well placed to provide you with a wide range of finance products.

Ford Credit[®]: Provides a range of finance plans for Commercial Vehicle customers interested in owning their vehicle.

Ford Lease[®]: Specialises in contract hire and leasing and provides an alternative range of finance plans which can be tailored to suit your business.

FORD PROTECT
Commercial Extended Warranty

Extend your warranty up to 5 years (from date of registration), with Ford Protect available at participating Ford Dealers.

Extend your standard 3-year warranty and enjoy worry-free motoring for many years to come. Ford Protect provides a range of key benefits including:

- Extended duration and mileage
- Cover against unexpected repair costs
- Protection on trips abroad
- With a Ford Protect Plan, the price of parts and labour are guaranteed for the length of your plan
- Helps prolong the lifespan of your Ford vehicle

Helps protect your vehicle resale value

Ford Protect terms and conditions apply for further information please call 03702 416 726.

*Repairs will start on the same working day (as long as you bring your vehicle in before 3pm), or at least within 24 hours of its arrival. If we need to order parts, we'll begin work the day they're delivered. 'Vehicle off road' repairs should be completed within 24-hours.

**Your Transit Centre can arrange to collect your vehicle and deliver it back to you after service or repairs, so you can get on with running your business. By arrangement and limited to a specific mileage radius of the dealer. Contact your local dealer to discuss your requirements.

†Available at participating Dealers only. Roadside Assistance is activated automatically at every routine service with coverage extended valid from the date of service for 12 months, or until the next service is due, whichever comes first. See Ford.co.uk/roadsideassistance for more information.

Get the most from your new Ford

We want to help you get the most from your new Ford. And to do that, you need to know how much it is designed to safely carry, both in terms of payload and load volume. Your Transit Centre can provide professional advice on important specification aspects, and help to find the right van for your budget and business needs.

The Ford Transit Minibus is designed to carry passengers in space and comfort.

Choosing a new Minibus is an important decision with lots of factors to be considered. While some aspects, like selecting the most appropriate derivative, identifying the intended primary use and determining seating capacity are relatively simple, others, such as calculating payload are more complex.

Payload capacity

To calculate payload, you need to know two things: the vehicle's gross vehicle mass (GVM) and its kerb mass.

GVM is the maximum permissible weight of the vehicle when loaded and ready to go – that includes the weight of the vehicle itself, ancillaries, driver and passengers (assuming the industry standard weight of 75 kg/person), fluids, fuel tank 90% full (1 litre of diesel = approximately 0.85 kg), optional and aftermarket equipment, and cargo.

Kerb mass is the weight of a standard-specification Leader series vehicle, including fluids and fuel tank 90% full, but without the driver, passengers or cargo.

Payload is the difference between the two.

Gross vehicle mass minus **kerb mass** = **payload**

So to help you choose the right vehicle for your needs, here are some more detailed explanations about the factors that can influence a vehicle's payload. These include, but are not limited to:

Driver and passengers

We calculate the weight of the driver and passengers based on the industry-standard weight of 75 kg/person. Remember that the driver and passengers are not included in the kerb mass figure, so when a driver or passenger boards the vehicle, its payload will be reduced accordingly.

Factory-fitted options

Most factory-fitted options will affect a vehicle's payload. For example, air conditioning can add approximately 18 kg to a vehicle's weight, and therefore reduce its payload accordingly.

Your Transit Centre will be able to tell you what features can add or reduce your vehicle's kerb mass and by how much.

Series

All kerb masses quoted in this brochure are for standard-specification Leader series models, unless otherwise stated. Trend and Limited series models will generally weigh more than Leader series due to the increased level of features and equipment.

Manufacturing tolerances

Variations in manufacturing and production processes mean that no two vehicles are likely to weigh exactly the same.

Accessories and aftermarket conversions

It is important to think carefully about what you add to your vehicle after you take delivery. Any accessories fitted or aftermarket conversions to the vehicle may adversely affect its payload. Please speak to your Transit Centre for more information and advice.

If payload is critical to your business, or if you plan to use the vehicle at, or close to, its maximum capacity, your Transit Centre can help. Using their specialist expertise and knowledge, they can advise you on the exact specification of vehicle required to meet your individual business needs.

Configure your vehicle to suit your needs

Ford Commercial Vehicles are available with a wide range of standard and optional features. Your Transit Centre can help you ensure that you specify the right vehicle features for your specific business needs, including technical items to aid aftermarket fitment of specialist equipment or conversion.

Note Technical information for vehicle converters can be found online via the Body and Equipment Mounting Manual @etis.ford.com go to >information >>vehicle conversions.

2.0 TDCi Ford EcoBlue 170 PS (125 kW) Stage 6 HDT 10-speed automatic	4600	1888-1913	1850	1331-1364	3120	1888-1907	3.73	6100

L2 = Medium wheelbase, **L3** = Long wheelbase, **L4** = Long wheelbase extended length, **H2** = Medium Roof, **H3** = High Roof, **SRW** = Single rear wheels, **DRW** = Dual rear wheels.

***Kerb mass** is affected by many factors such as bodystyles, engines and options. It is the weight of a standard-specification base vehicle (different series will have different kerb masses), including fluids and fuel tank 90% full, but without the driver (75 kg), crew or cargo. Payload within this guide is the difference between gross vehicle mass (GVM) and kerb mass with a further 75 kg deduction for the weight of the driver. It must be noted that actual weight will always be subject to manufacturing tolerances which may result in payload variations between this guide and actual weight. For customers intending to load vehicle close to maximum payload, we suggest you also add a margin for error of 5% of kerb mass to the kerb mass figure before calculation, to reduce risk of overloading. NB: It is the responsibility of the vehicle operator to ensure their vehicles are legally compliant for road use.⁸⁰⁰The declared fuel/energy consumptions and CO₂ emissions are measured according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EC) 692/2008 as last amended. Fuel consumption and CO₂ emissions may be specified for a vehicle variant and not for a single vehicle. The applied standard test procedure enables comparison between vehicle types and different manufacturers. In addition to the fuel efficiency of a vehicle; driving behaviour as well as other non-technical factors are very important in determining a vehicle's fuel/energy consumption and CO₂ emissions. **Figures apply to Medium Roof H2 vehicles unless otherwise stated. For High Roof H3 option vehicles, kerb mass is increased and payload reduced.**

^Ford Lease is provided by ALD Automotive Limited acting as Ford Lease BS16 7LB. ALD is registered in England No. 987418. ALD is authorised and regulated by the Financial Conduct Authority.

FordPass i is a new platform that will empower you to rethink the way you move. Finds parking locations nearby, contains vehicle and finance details, dealer information and a host of useful guides.
Live Traffic access is free for the first 2 years following the purchase of a new Ford featuring SYNC 3 with navigation; thereafter there is an annual licence fee.

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and recommended prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. Fitment of accessories may have an impact on your vehicle's fuel consumption. ★ The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.
